Villupuram | +91 8428140571 | jahangeer7704@gmail.com

## Full Stack Developer

---

Passionate Full Stack Developer with hands-on experience in building scalable web applications using the MERN stack and microservices architecture. Proven ability to deliver clean, efficient code and mentor others, with a strong focus on backend development and real-time systems.

## Experience

---

### Sirtifai SPP – Business Portfolio Website

(June 2025)

**Description:** A responsive and animated business website built to showcase Sirtifai's services and branding.

**Technologies Used:** React.js, Tailwind CSS, Framer Motion, EmailJS

#### Role and Responsibilities:

- Designed modern UI with scroll-based animations and responsive layouts
- Implemented interactive contact form with EmailJS integration
- Optimized component structure for scalability and maintainability

**Outcome:** Delivered a visually appealing portfolio site that improved brand visibility and client outreach

### Chronexa – HRMS Backend System

(May 2025 – June 2025)

**Description:** A scalable HR management system handling payroll, leave, and core employee modules.

**Technologies Used:** Node.js, Express.js, MySQL

#### Role and Responsibilities:

- Developed REST APIs for payroll and leave modules
- Optimized relational schema for performance and scalability
- Collaborated with frontend and QA teams in agile sprints

**Outcome:** Successfully delivered modular backend services with reduced query time and seamless frontend integration

### Tred Scanner – Microservices for Community Platform

(Mar 2025 - May 2025)

**Description:** A modular platform enabling group/channel management and threaded discussions.

**Technologies Used:** Node.js, Express.js, MongoDB, React.js, Redis, Socket io

#### Role and Responsibilities:

- Built Resources and Tred Space microservices with RESTful APIs
- Designed responsive React interfaces

**Outcome:** Delivered scalable microservices and responsive UI with efficient Live Events

### GzofTech – UI Enhancement for Internal Tools

(Feb 2025)

**Description:** A modern, animated portfolio website for a software training and service business.

**Technologies Used:** React.js, Tailwind CSS, Zustand, Framer Motion

#### Role and Responsibilities:

- Designed and implemented engaging, responsive UI components

- Integrated state management with Zustand for modularity
  - Used Framer Motion to enhance interactivity and transitions
- Outcome:** Delivered a clean, fast-loading, and attractive portfolio that effectively showcases the brand and services

## Education

---

### Acharya College of Engineering Technology

B.Tech in Computer Science and Engineering

CGPA: 8.4

Duration: 2021 – 2025

Location: Puducherry, India

## Skills

---

### Programming Languages

- Java, JavaScript, TypeScript

### Frontend

- React.js, Next.js, Tailwind CSS, Zustand, Framer Motion

### Backend

- Node.js, Express.js, REST APIs

### Databases

- MongoDB, PostgreSQL, Redis

### DevOps & Tools

- Docker, Git, GitHub Actions, Postman

### Architectural Patterns

- Microservices, MVC, Hexagonal Architecture.

### Soft Skills

- Agile Collaboration, Problem Solving, Communication, Self-Motivated.

## Achievements

---

- Delivered multiple freelance projects across domains including HRMS, community platforms, and business portfolios
- Mentored 200+ students as a MERN Stack trainer at GzofTech (Jan 2025)

## Certifications

---

- **Meta** – HTML & CSS
- **Coursera** – Backend Development
- **Hacker Rank** – React.js
- **LinkedIn Learning** – Full Stack Web Development, SQL, Node.js

## Declaration

---

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I bear the responsibility for the correctness of the above-mentioned particulars.
